Candidates should be very cautious while filling Option Entries:

All the PG Medical/Dental aspirants are informed to remember the following important points while entering the Options/Priorities of courses and colleges for seat selection to PG admission.

- All PG Medical/Dental seats are classified into four types as given below
 - Government seats in Government colleges as well as private colleges – Govt (G)
 - Private quota Seats in Private colleges - Private(P),
 - Non Resident Indian seats - NRI -(N)
 - Others seats - Other(Q)

- All the seats are notified with six characters as given below

<u>M</u>	<u>1</u>	<u>7</u>	<u>G</u>	<u>C</u>	<u>1</u>
----------	----------	----------	----------	----------	----------

From Left to right

M – Medical
 17 – College Code
 G – Government seat
 C1 – Subject Code

<u>M</u>	<u>1</u>	<u>7</u>	<u>P</u>	<u>C</u>	<u>1</u>

----------	----------	----------	----------	----------	----------

From Left to right

M – Medical
 17 – College Code
 G – Government seat
 C2 – Subject Code

- The above mentioned seat notification code would be displayed with fees details during the Option entry after login to system based on the eligibility of the each candidate

- The Seat allotment logic/module/system follows the Category, NEET Rank of the candidate along with the entered options and priorities given by the candidate during options entry
 - Assume that a candidate is eligible under for G & GMP seats, then, he/she would be eligible to enter options related to G-Seats, P-Seats and Q-Seats of all colleges
 - If he/she entered Options with the priorities as given below, then the system would check the seat availability as per the options & priorities and allot the seat if it is available at that point in time [as explained below]

Options	Priority No.
M17PC1 -	01
M17QC1 -	02
M17GC1 -	03
M17GC2 -	04

In the above scenario, the system would check the seat availability for the above four options one by one starting from the priority No. 1 to 4 in order and would allot seat based on the availability. Assume that the candidate is having required merit/rank to avail any seat of the above four options including the G-Seats of option/priority no. 3 or 4, where the fees is lower as compare to the P-Seat/Q-Seat. The system would allot seat only against option/priority No. 01 as seat is available as per his/her merit/rank and he/she has not given G-Seats in the top. Therefore, all the candidates are informed to be very cautious while filling option entries & priority as there is no provision to change the seat in the later stage once seat is allotted.

The allotment will be based on merit, priority of options entered by the candidate and roster prescribed by the Government.

The allotment of seats will be conducted in multiple number of iterations.

1. First Round.
2. Second Round.
3. Mop-up Round

14.1 Order of online seat allotment in first round:

- a) Persons with benchmark disabilities
- b) Common merit list of in-service & non in-service candidates

The seat will be allotted to the eligible candidates as per the roster system and seat matrix issued by the Government and based on the options entered by the candidates.

14.2 Procedure for allotment of seats in Medical / Dental Discipline:

The computer starts with allotment of seats to rank number 1 in Medical discipline. The computer first checks the availability of seats for the First option entered by the candidate with Rank no 1. Obviously the candidate will get the seat as per his options. Whereas for the next rank holders the computer check the availability of seats for the first option, if seat is available it will allot or if the seat is not available then the computer will search for the next option. Like that the computer will search for the availability of seats for all the options entered by the

candidates. The computer will stop searching for allotment of seats once the seat is allotted then the computer will move on to next eligible candidates. Similarly the computer will search for all the candidates based on the merit and options. Like this the computer will reach the last rank till seats are exhausted or till last rank candidate is reached. This entire process is called iteration.

14.3 Seat Allotment Logic:

Based on the seat matrix issued by the Government, action will be taken to allot the seats to the candidates based on their eligibility and reservation criteria. The options entered by the candidate will be considered for allotment based on the merit. While allotting the seats to the candidates, the computer will check the availability of seats for each option based on the priority of options. The order of allotment / reservation for each of the category is detailed below for the information of the candidates.

The allotment of seat for a particular candidate is based on his/her rank and priority option entered. In any category, the candidate option is searched in general category (GM) and allotted, if no seat is available in GM category the computer searches in Hyderabad Karnataka GM quota (GMH) and allots the seat. If seat is not available either in GM or GMH then it follows the priority order as shown above. This improves the category of seat allotted to roster. In the same manner all the categories improved as per roster for candidates claiming reservation.
